Northern Spark

Northern Lights supports artists in the creation and presentation of art in the public sphere, focusing on innovative uses of technology to imagine new interactions between audience, artwork and place and explore expanded possibilities for civic engagement.

Our largest program is Northern Spark, a free, annual, late-night, multidisciplinary arts festival that takes place in June and draws tens of thousands of Minnesotans each year. In collaboration with arts organizations and community partners, we turn the city into a surprising arts experience.
